

**THE AVAYA CONVERSANT VOICE INFORMATION SYSTEM WITH AMERICA'S SCHOOL SOLUTION SOFTWARE FROM ACCUVOICE INC.**

Community outreach solutions using today's technology on behalf of our students, teachers and parents

## New Generation Substitute Employee Locator

The substitute employee locator is designed to accept employees' absences over a touch-tone phone and then outcall to a substitute pool in search of a replacement. The system chooses substitutes according to parameters set by specialty codes and preferences (if a teacher – by grade level). The substitute locator will call all of the substitutes that match the request according to these parameters. If no substitute can be found, the system can be set (teachers only) to call the general pool of substitutes.

- Application Administration**
- ❑ Using the appropriate ID and password, the administrator can call into the system with special privileges.
  - ❑ Administrators can create, edit, delete or check the status of any request as well as change global variables and database information.
  - ❑ Teachers or other employees can in their absences

- Benefits**
- ❑ 24 hours a day access
  - ❑ Finding of a replacement starts either automatically or at a set time.
  - ❑ Either the Principal or his/her appointed person is either e-mailed or faxed a list of absent teachers and their replacements along with any slots that were not filled.
